Featured Selection: The Cat in the Hat

Summary: Two children are left alone at home on a cold, wet day. They have nothing to do until the Cat in the Hat walks in. He teaches them games and tricks that turn the house into a mess. The cat juggled household items while bouncing on a ball. His friends, Thing 1 and Thing 2, flew a kite the house, which made a bigger mess. The fish ordered the cat to leave, but he stayed and continued to cause trouble. Eventually, the children notice their mother walking up the sidewalk. The cat quickly and magically cleans up the house just in time. The mother enters and has no idea what she missed.

The Focus Unit functions as a vehicle for incorporating literature into the elementary school curriculum. Each unit is carefully planned to expose children to literature and to promote the growth of literary appreciation and taste. Children become active participants in the process of exploring language and literature, and they gradually expand their capacity to comprehend narrative and to read and write critically and creatively.
